CHANGE CONTROL PACK

CR-CUST-001

Customer Review Pass для предварительной Phase 1

Документ	BIB-CRP-0001
Версия документа	1.0.0
Статус	Accepted / Implemented / QA Passed
Прототип	v0.5.0-alpha.6
Build	BIB-P1-20260806-0150-Z
Затрагиваемый baseline	v0.5.0-alpha.5
Технический baseline	BIB-PTZ-0001 v0.1.2
Дата	2026-08-06 UTC
Канал решения	ChatGPT-канал аккаунта Владимира Павличенко

Статус полномочий

Решение операционно зафиксировано через используемый ChatGPT-канал. Документ не заявляет внешне верифицированную личную подпись владельца, юридическое представительство или production-приёмку.

0. Document control and contents

Назначение пакета

Пакет объединяет формальный Change Request, Decision Evidence Record, Impact Analysis, Full Reference Specification, Baseline Record и результаты QA. Индивидуальные исходные записи также сохранены в каталоге docs/ в машиночитаемом Markdown-виде.

Нормативная иерархия

Приоритет	Источник	Роль в решении
1	BIB-PTZ-0001 v0.1.2	Границы первой фазы, маршруты, компоненты и приёмка.
2	Phase 1 v0.5.0-alpha.5	Неизменяемая база, к которой относится customer review.
3	Customer evidence 2026-08-05	Контекст семи визуально-композиционных уточнений.
4	Подтверждение текущего канала	Разрешение оформить CR, документы и полноценный reference.
5	v0.5.0-alpha.6	Новая реализация и объект QA.

Состав

- 1. Executive decision summary
- 2. Change Request CR-CUST-001
- 3. Decision evidence record
- 4. Impact analysis and boundaries
- 5. Full reference specification
- 6. Traceability and acceptance
- 7. QA report and release decision
- 8. Baseline record
- Appendix A. Customer evidence
- Appendix B. Implementation evidence

РЕШЕНИЕ

1. Executive decision summary

Решение

CR-CUST-001 принят, реализован в v0.5.0-alpha.6 и прошёл static, responsive, interaction/component и visual QA. Alpha.5 не изменялся.

Что изменилось

- пять показателей получили пять самостоятельных пиктограмм;
- шесть benefit cards получили media-zone в верхней части;
- journey стал восьмишаговым направленным stepper с тремя состояниями;
- добавлен отдельный 5★ testimonials carousel;
- пакеты представлены тремя уровнями и демонстрационным configurator;
- расширен секционный цветовой ритм в пределах утверждённых ролей токенов;
- добавлены две оригинальные editorial-вставки.

Что не изменилось

- проект остаётся статическим интерактивным прототипом, а не Joomla package;
- production pricing, payment, реальные формы и медицинские/юридические решения не добавлены;
- customer screenshots не используются как site media;
- утверждённые foundation tokens, типографические роли и reduced-motion сохранены.

Результат QA

Контур	Результат	Итог
Static validation	18 pages; 0 broken refs; 0 duplicate IDs	PASSED
Responsive matrix	18 × 5 = 90 cases	90 / 90
Interaction/components	23 targeted checks	23 / 23
CR completion	7 controlled outcomes	7 / 7
Visual reference	Desktop 1920 + mobile 390	PASSED

SCOPE AND EXPECTED RESULT

2. Change Request CR-CUST-001

Наименование: Customer Review Pass для preliminary Phase 1. Статус: Accepted → Implemented in v0.5.0-alpha.6. Затрагиваемый baseline: v0.5.0-alpha.5. Build: BIB-P1-20260806-0150-Z.

Запрашиваемые изменения

ID	Запрос	Нормализованный результат	Связь
CR-01	Иконки в показателях	5 самостоятельных пиктограмм; сохранены labels статуса данных.	H-03; AC-07/08
CR-02	Картинки в верхней части карточек	6 media-zone + icon/title/copy; variable text устойчив.	H-04; AC-03/07
CR-03	Более отчётливый переход со стрелками	8 steps, 7 connectors, completed/current/upcoming; mobile vertical.	H-05; AC-05/06
CR-04	Testimonials / What our families say	4 коротких 5★ slides, controls, reduced-motion, status labels.	H-10; Slider; AC-06/08
CR-05	3 пакета, все пакеты и custom-сборка	3 levels + all-packages CTA + working demo configurator.	H-07; P-04; AC-04/08
CR-06	Больше cream/coral/teal	Цветовой ритм расширен только в утверждённых ролях.	H-02...12; AC-07
CR-07	Художественные вставки	2 оригинальные SVG-композиции; evidence и media не смешиваются.	H-04...10; AC-07/08

Измеримые условия закрытия

- 5 indicators / 5 icons; 6 benefit cards / 6 media zones;
- 8 journey steps / 7 connectors / 3 visible state types;
- минимум 3 testimonials; фактически реализовано 4, по 5 звёзд;
- 3 package levels, all-packages CTA, working configurator and clipboard;
- минимум 2 editorial inserts; фактически реализовано 2;
- 0 user-scrollable horizontal overflow at 360, 768, 1024, 1440 and 1920 CSS px;
- demo/fixture/verified material remains visibly distinguishable.

SOURCE AND NORMALIZATION

3. Decision evidence record

Customer review

Customer review 2026-08-05 confirmed that the preliminary direction was generally aligned with the previously discussed concept and requested seven local improvements: icons, card media, stronger journey arrows, testimonials, package construction, broader approved palette rhythm and artistic insertions.

Operational confirmation

В текущем канале пользователь подтвердил: оформить полноценный Change Request, при необходимости подготовить все документы и сделать полноценный reference.

Нормализованное решение

- alpha.5 остаётся неизменяемым baseline;
- семь customer remarks объединяются в CR-CUST-001 с отдельными критериями;
- реализация получает новую версию alpha.6;
- создаются CR, evidence record, baseline record, traceability, acceptance, QA and reference artifacts;
- статус остаётся preliminary prototype, не production/Joomla acceptance.

Evidence boundary

Customer screenshots retained in docs/evidence are contextual proof only. They are not licensed or adopted as production site media.

CONTROLLED CHANGE

4. Impact analysis and boundaries

Area	Impact / decision
Code / generator	Главная, modal, Review dashboard, shared CSS/JS and fixtures changed. Compiled output regenerated; no manual patch-only release.
Interaction	Added configurator; added testimonials Swiper; preserved menus, custom selects, forms, Fancybox, Review clipboard/export.
Accessibility	Linear DOM order; native radio/checkbox; keyboard controls; visible states; reduced-motion respected.
Content / media	Original local SVG placeholders added. Testimonials remain fixture/demo unless explicitly verified.
Responsive	New sections tested at five control widths; journey becomes vertical; grids stack.
Joomla / production	No PHP template, overrides, extensions, payment, pricing engine, or real submissions.

Open dependencies

- rights-cleared photo/video package;
- verified testimonials and permissions;
- final package definitions and prices;
- medical and legal reviewers;
- final RU/EN/PT-BR/ES content and analytics scheme.

VISUAL AND INTERACTION CONTRACT

5. Full reference specification

Homepage sequence

ID	Reference role
H-01–03	Header / hero / icon-led indicators
H-04	Six benefit cards with upper media zone
CR-07A	Route + passport editorial break
H-05	8-step connected journey
H-06	Services hub
H-07	Three packages + configurator
H-08–09	Doctors/clinics and document evidence
CR-07B	Family + coast editorial break
H-10	5★ testimonials carousel + family story bridge
H-11–13	Blog/guides, FAQ/final CTA and footer

Visual language

Token	HEX	Controlled use
Primary Navy	#013277	Structure, headings, major CTA.
Primary Teal	#179AA1	Routes, states and supporting UI.
Warm Cream	#FFF7F3	Family and emotional sections.
CTA Coral	#F67765	Limited emotional CTA / current-state highlight.
Rating Gold	#EEAA36	Stars and local ratings only.

Interaction contract

- dropdown navigation: pointer, focus and touch states;
- custom form selects and attached language menu;
- Swiper testimonials with visible controls and no autoplay dependency;
- package configurator with native controls, provisional result and clipboard;
- form states, modal, FAQ, Fancybox and Review copy/export;
- native IntersectionObserver reveal runtime and prefers-reduced-motion.

REQUIREMENT MAPPING

6. Traceability and acceptance

Customer traceability

ID	Prototype evidence	QA evidence
CR-01	.site-stat__icon; H-03	5 / 5 icons
CR-02	.site-benefit-card__media	6 / 6 media zones
CR-03	.site-journey; connectors; states	8 steps; 7 connectors; mobile flow
CR-04	[data-swiper="testimonials"]	4 slides; 5 stars each
CR-05	H-07; #package-builder-modal	3 levels; update; clipboard
CR-06	token-role CSS / section rhythm	visual review passed
CR-07	two customer-pass editorial SVGs	2 art breaks; evidence policy passed

PTZ acceptance disposition

ID	Disposition	Evidence
PT-AC-01	Pass	Hero and next action visible in first route.
PT-AC-02	Pass	Offer → trust → process → services/packages → evidence → contact.
PT-AC-03	Pass	18 pages, P-01...09 and H-01...13.
PT-AC-04	Pass	Critical CTA, modal and configurator paths.
PT-AC-05	Pass	Responsive 90/90; X overflow 0.
PT-AC-06	Pass	Interaction/component 23/23.
PT-AC-07	Pass	Approved token/type roles; Lora absent.
PT-AC-08	Pass	Demo/fixture/verified labels; placeholder register.
PT-AC-09	Pass	CR and Review IDs, traceability and expected results.
PT-AC-10	Pass	Exact version/build and baseline record.
PT-AC-11	Pass	alpha.5 unchanged; alpha.6 released as CR version.

VERIFICATION

7. QA report and release decision

Results

Overall preliminary package QA: PASSED

Static validation passed; responsive matrix 90/90; interaction/component checks 23/23; CR-CUST-001 completion 7/7; visual reference review passed.

Responsive matrix

All 18 HTML pages were tested in Chromium at 360, 768, 1024, 1440 and 1920 CSS px with page JavaScript disabled for the layout pass. No user-scrollable horizontal overflow or missing H1 was detected.

Interaction matrix

The targeted browser pass verified the seven customer outcomes, the package-builder modal/recalculation/clipboard, article geometry, blog stress cases, custom controls, stable navigation, Review clipboard, mobile flow, scrollbar and custom lists.

Release decision

Operational status

v0.5.0-alpha.6 is suitable as the full preliminary Phase 1 reference for the recorded customer corrections. It is not a production acceptance or Joomla delivery.

IMMUTABLE RELEASE RECORD

8. Baseline record

Baseline ID	BIB-BL-P1-0.5.0-alpha.6
Artifact	Baby_in_Brazil_Phase_1_Preliminary_Prototype_v0.5.0-alpha.6.zip
Build	BIB-P1-20260806-0150-Z
Supersedes	BIB-BL-P1-0.5.0-alpha.5
Included	P-01...09; H-01...13; CR-CUST-001; alpha.1...5 corrections
Excluded	Joomla/PHP; real submissions; final prices; reviewed medical/legal content; final media rights
Integrity	SHA-256 package and internal manifest generated after final QA

Immutability rule

После финальной упаковки байты под версией v0.5.0-alpha.6 не заменяются. Любое последующее изменение получает новую версию и, если меняет baseline/scope/concept, отдельный Change Request.

CONTEXT ONLY

Appendix A. Customer evidence

Нижe показаны выборочные customer screenshots, сохранённые как evidence. Они не являются pixel-contract, лицензированными production media или самостоятельным источником реализации.

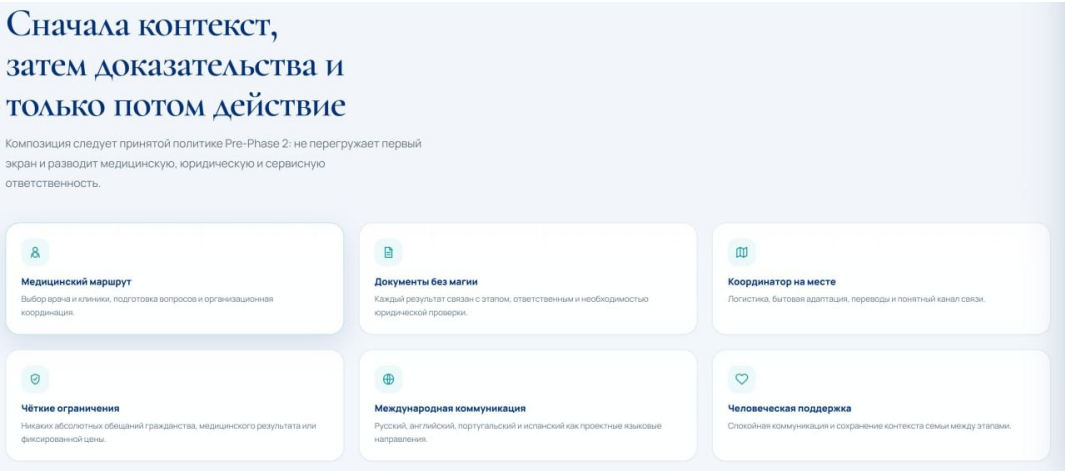

Figure A1 — request for image/media area in upper card section.

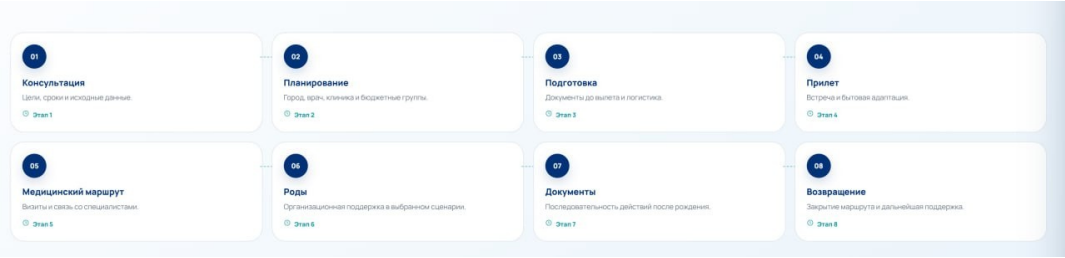

Figure A2 — request for more explicit journey transitions and arrows.

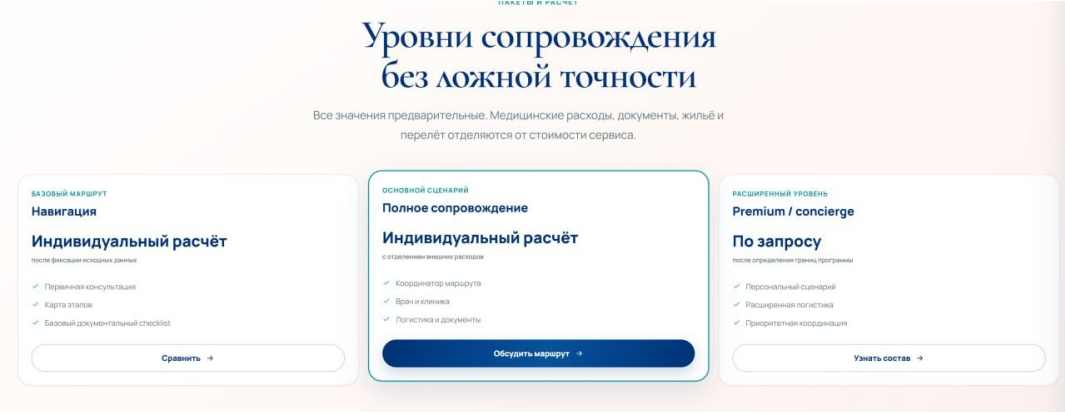

Figure A3 — package levels, all-packages action and custom assembly context.

ALPHA.6 REFERENCE

Appendix B. Implementation evidence

Representative implementation renders below are evidence of the exact alpha.6 build. Full-page desktop and mobile reference images are included separately in the artifact package.

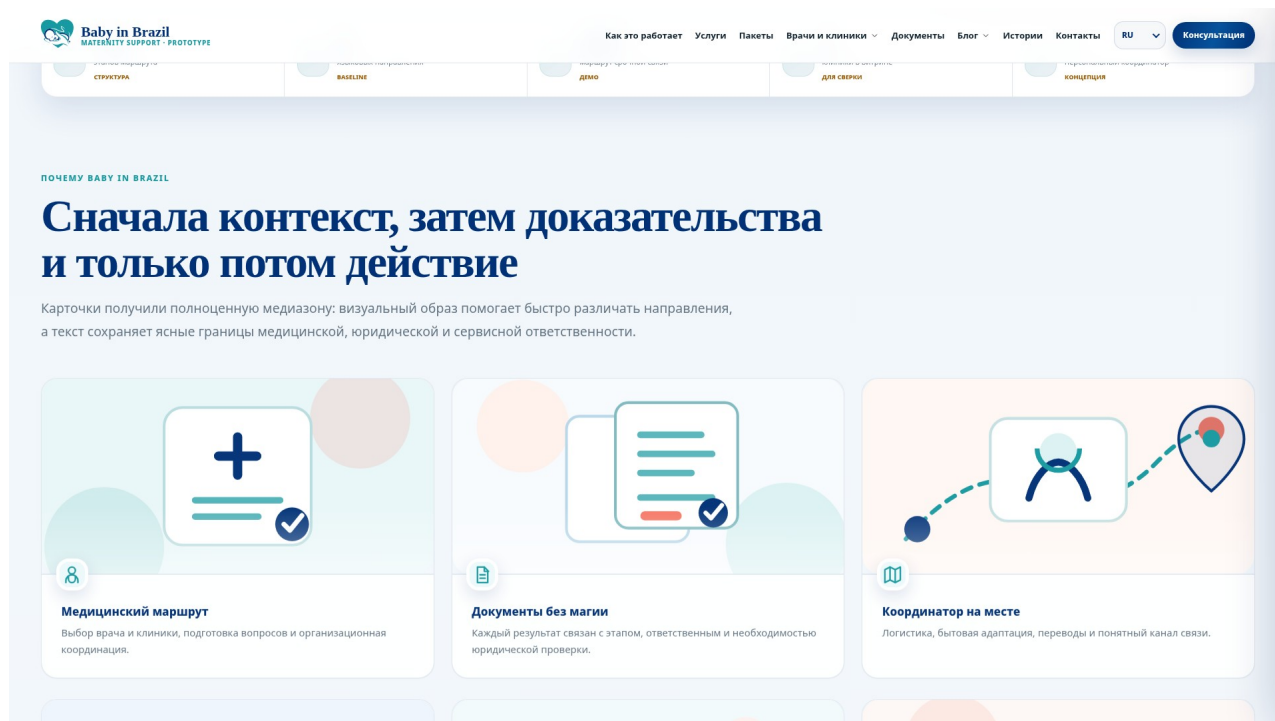

Figure B1 — icon-led indicators and benefit cards with upper media zones.

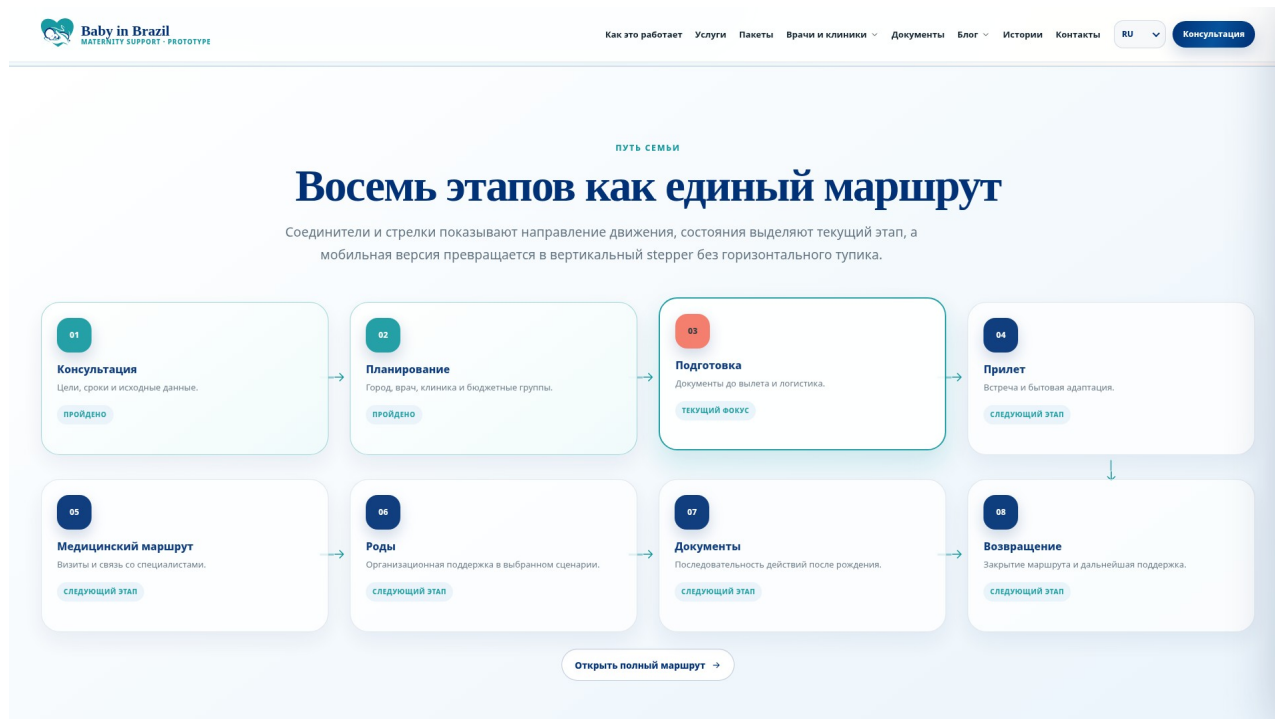

Figure B2 — eight-step journey with directional connectors and state treatment.

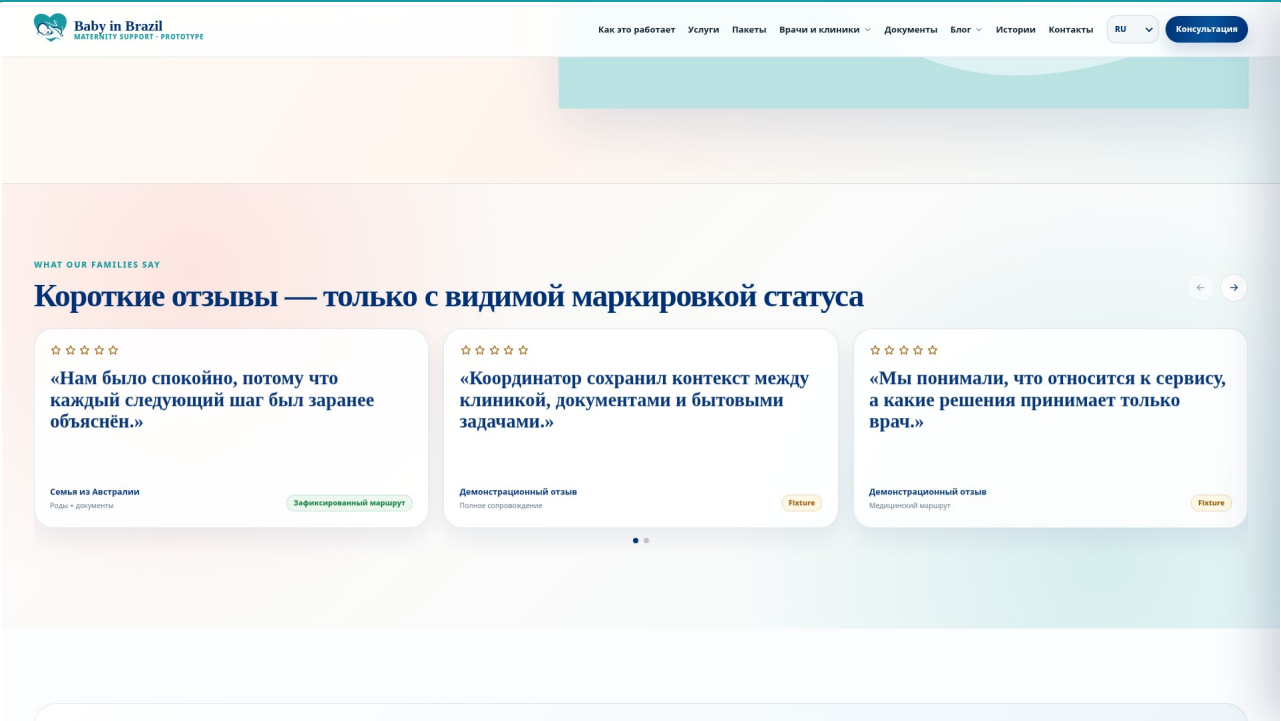

Figure B3 — independent 5-star testimonials carousel.

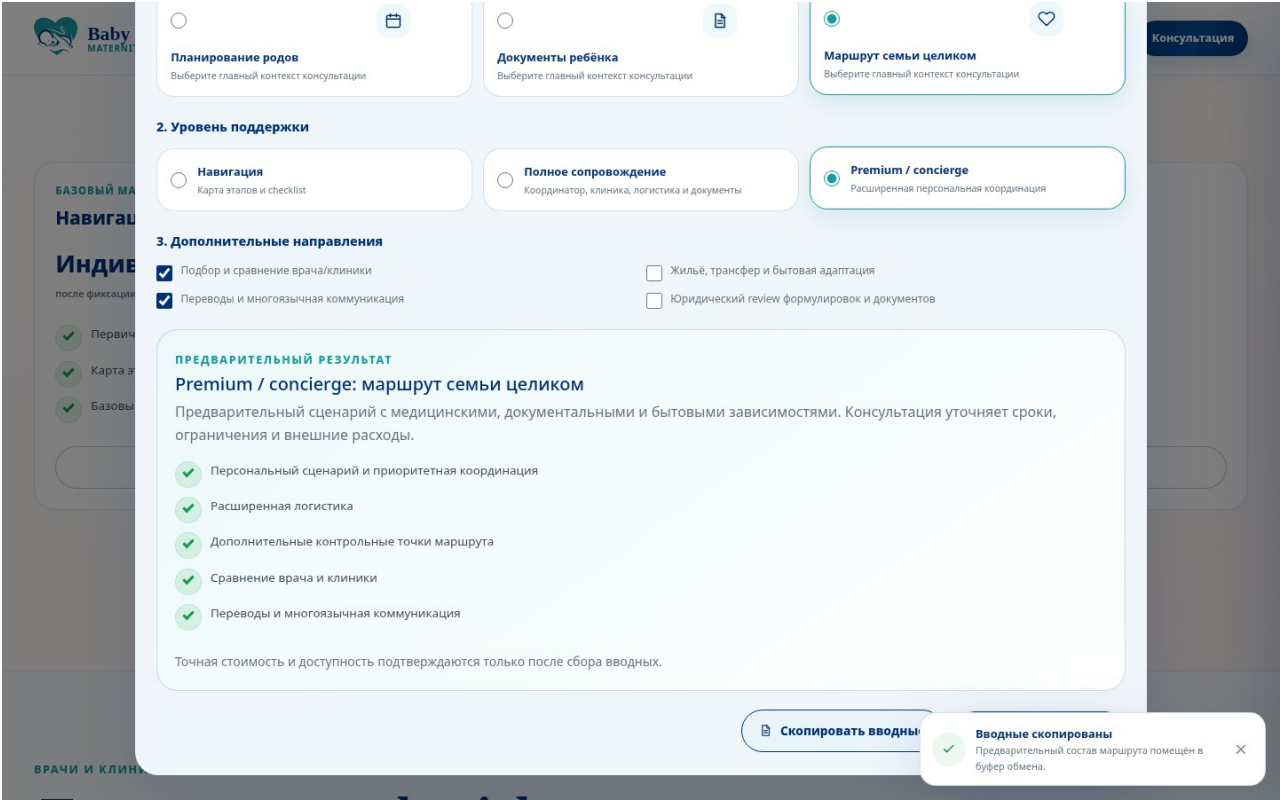

Figure B4 — working provisional package-route configurator.

RELEASE NOTE

Full preliminary reference completed

CR-CUST-001 is recorded, implemented and verified for v0.5.0-alpha.6 / BIB-P1-20260806-0150-Z. The package contains source records, machine-readable QA, implementation screenshots, full-page references and integrity manifests.

Next gate

Use this baseline for customer review of the preliminary reference. Production content, verified media, final prices, medical/legal review and Joomla integration remain separate gates.
